ND '21

Alcea

Unmet Need

Feminine product dispensers in public bathrooms are often broken, filled with low-quality products, or not maintained.

Solution

A reimagined feminine product dispenser with a variety of high-quality single-use feminine products, contactless payment accessibility, and inventory tracking.

Anytime Sports

Unmet Need

Young and underprivileged athletes do not have access to high quality training and connections.

Solution

On-demand sports platform that offers athletes online and in-person professional training and connections to athletes nearby.

Athlete Digest

Unmet Need

Mentorship and coaching in college athletics is not equitable and accessible to kids across the country.

Solution

Marketplace for mentorship and coaching to youth athletes pursuing college athletics through virtual content and engagement with current college athletes.

CANU

Unmet Need

Finding products that are sustainable and match consumer values is time-consuming and difficult.

Solution

A browser extension that gives product and company data and links to alternative products that meet the user's preferences.

Doggi, LLC

Unmet Need

Busy pet owners struggle to remember and carry out daily pet care tasks.

Solution

An IoT network of solutions with a mobile app that connects a smart bowl, collar, and door opener to automate daily pet care.

DormBroker

Unmet Need

College students do not have a centralized, easy, and safe way to buy and sell goods within their student community.

Solution

A peer-to-peer marketplace platform exclusive to college campuses.

ND '23

EyeDriving

Unmet Need

Patients who have lost their ability to move rely on power wheelchairs for movement, and have difficulty using them.

Solution

An integrated hardware + software solution that allows disabled patients to operate their power wheelchair with just their eyes.

Hunt Regs

Unmet Need

Hunters often have a difficult time understanding the hunting regulations for their planned hunting area.

Solution

An interactive map platform that provides hunters with the information they need for their specific hunting area.

Peter Dore
MFA Industrial Design '22

Intrvene

Unmet Need

People suffering from addiction have trouble remembering coping mechanisms in high stress situations.

Solution

A wearable biometric sensor with a haptic interface that reminds people in high stress situations to use an array of coping skills to beat addiction.

Studia.app

Unmet Need

There is a lack of high quality STEM educational resources that guide students through science problems in a step-by-step manner.

Solution

A web platform that offers hundreds of teacher-approved, step-by-step solutions of STEM practice problems.

Rory Finn
ND '22

SANDO

Unmet Need

Current offerings for picnic blankets are either not waterproof, not photogenic, or not sustainably produced.

Solution

A DTC waterproof picnic blanket brand to help young professionals and students enjoy an elevated outdoor experience even if the grass or sand is a little damp.

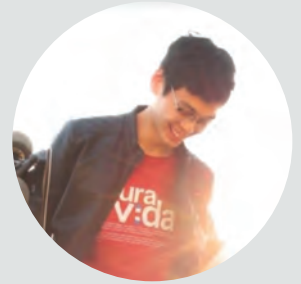

XR General Hospital

Unmet Need

Since the brand is now defunct, Boosted Board riders do not have an affordable way to repair their current Boosted Boards.

Solution

The XR General Hospital is a repair center for your Boosted Board - all you have to do is send a video, ship, and wait.
